

Leader Development Institute

Become a Kepner-Tregoe Program Leader

Prerequisites: To be considered for the KT Leadership Development Institute, you must attend a minimum 3-day Problem Solving and Decision Making, Analytic Trouble Shooting, KT Resolve®, or Project Management workshop and be interviewed by a KT professional and a representative of your organization. Final selections are based on experience and willingness to acquire the skills needed to serve as a KT Program Leader.

Audience: Functional and project managers, future managers, internal consultants, and facilitators will gain valuable skills.

Duration: 10 Days

Credits: 70 PDU's

Course Description

Employees from a variety of organizations come together to become certified as KT Program Leaders who can lead workshops within your organization. These leaders play a critical role in developing and implementing programs that drive sustainable results and align the organization for success.

The Leader Development Institute has proven to be one of the most effective methods for embedding KT **Clear Thinking** capabilities into an organization. It is an intensive skill development experience that provides in-depth concept knowledge and instructor training. In essence, they become leaders of the organization's **Clear Thinking** process and "change agents."

Skills Developed

Advance the skills you acquired in our 10-day workshop including:

- In-depth concept knowledge, instructor training, and facilitation skills
- Change the way people behave and address issues
- Apply the concepts to organizational issues
- Develop the Systematic Teaching skills to conduct workshops in-house
- Accelerate issue resolution using advanced troubleshooting skills
- Develop thinking leadership abilities that result in a powerful career, and often life enhancing experiences

Benefits

- Maximize in-house skill development capability
- Add advanced process skills to your teams
- Ability to tailor the workshop for different audiences, provide authentic examples and experiences related to the participant's own environment
- Maximize results from investment into skill development

"KT is essential to our business. We have used KT processes for years as a framework for the way we do business; they are enduring. At Smucker's, they change only in how we apply them to resolve current business issues."

Richard Smucker
Co-President
J.M. Smucker Company

Project Management

Results Delivered

Disciplined execution for projects of all sizes

Audience: Project managers and any individuals working in a project environment will benefit from this workshop. Bring your project team and prepare for your next project, or get a project back on track.

Duration: 3 Days

Credits: 21 PDUs

Course Description

Organizations worldwide use the KT Project Management approach to ensure that key projects are delivered on time, on budget, and with the desired results. Our scalable process ensures that you have the necessary discipline while being able to adjust flexibly to the scope and needs of a project.

The workshop provides you with project management concepts and core tools to immediately enhance your project work. A realistic, hands-on case helps you use the KT processes and a portion of the workshop is dedicated to applying skills to a project you manage or contribute to at work. You will also receive expert advice and coaching from a KT professional during and after the workshop.

Skills Developed

- Clarify timing, cost, and performance parameters
- Identify specific results that the project should produce
- Confidently determine who will do what and when
- Overcome common project pitfalls
- Ensure project goals are achieved while leveraging new opportunities
- Manage human performance and address stakeholder involvement and satisfaction

A Management Classic
Participants will receive Kepner-Tregoe's book, *The Rational Project Manager*

We are a Project Management Institute (PMI) Certified provider of Project Management Consulting and Training. The KT Project Management approach links with the PMI's Project Management Body of Knowledge, providing a question-based rationale that makes it easier to learn and apply.

- A listed Singapore property developer applied KT project management process and achieved savings of close to 1 million dollars. Significant improvements included:
 - Reduced construction delay by 57 days
 - Shortened Concrete Body Plan (CBP) processing time by 72%
 - Achieved 100% compliance during 1st CONQUAS inspection of M&E works
- ZLB Plasma Services partnered with KT to manage project change and increased on-time projects from 56.4% to 90%
