

Strategic Thinking & Execution

Make the decisions that will lift your organization to greater heights

Audience: All key managers and professionals, both line and staff responsible for making and recommending resource allocations, accomplishing growth and profit targets, or for designing, marketing, producing or distributing the organization's products or services. Middle managers who should attend include those who report directly to the top team down to second and even first level managers.

Duration: 2 Days

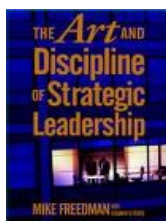

Course Description

Strategic Thinking & Execution workshop (also referred to as Strategic Decision Making for Leaders in some countries) is designed for your organization's middle managers - those who report directly to top levels and have significant responsibility for implementation. It prepares managers to play an active role in building strategic understanding and commitment throughout the organization. As your managers gain strategic experience, your organization benefits from the pooled strength of a cadre of people with strategic decision making skills. This program is the first step to building these skills for your organization's future leaders.

Skills Developed

- Explore the concepts and tools used for strategic intelligence gathering and analysis, strategy formulation, strategy implementation planning, strategy implementation, and strategy monitoring and updating
- Practice establishing an organization strategy using a case study
- Explore the strategic roles of the middle manager
- Deepen understanding of your organization's chosen strategy
- Begin creating a strategy for your own business unit
- Develop action plans for completing the unit strategy formulation and initiating implementation

Participants will receive Kepner-Tregoe's book, *The Art & Discipline of Strategic Leadership*

Results Delivered

- KT processes brought the right minds together, challenged management's thinking and allowed DAL Group (Sudan) to develop and implement an ambitious strategy for agriculture. Results include:
 - Establishment of local milk collection centres resulted in savings of \$5 million per year
 - An arable farming project on the Nile produced \$16 million worth of export crops
- Following a merger, a global company saved \$1.3 million on insurance costs the first year and \$300,000 in subsequent years
